

Rec'd 3/15/2017

Hi,

Bradley University is again hosting the Illinois Heartland ACS High School Chemistry Contest this May, and I would like addresses for local high school chemistry teachers. More specifically, for the most recent school year available, I'd be interested in the names and (school) addresses for teachers in the school districts of Knox, Stark, Peoria, Woodford, Fulton, Tazewell, McLean, Mason, Menard, Cass, and Morgan counties, with chemistry as a 1st, 2nd or 3rd assignment. Assuming the codes from 2 years ago are still valid, I'd be interested in the following courses:

<b>03101A000</b>	<b>Chemistry</b>
<b>03102A000</b>	<b>Chemistry—Advanced Studies</b>
<b>03105A000</b>	<b>Conceptual Chemistry</b>
<b>03106A000</b>	<b>AP Chemistry</b>
<b>03107A000</b>	<b>IB Chemistry</b>
<b>03149A000</b>	<b>Chemistry—Other</b>

I tried to do this myself from the EIS Public Dataset; unfortunately, "Chemistry" isn't a designation in that file (it's "Life and Physical Sciences" now).

Thank you for your help,

Wayne Bosma
