

Rec'd 4/13/2017

Hello,

I would like to request under the Freedom of Information Act, data showing the number of written complaints, mediations and due process disputes by school district filed with the state's Special Education Services division for year 2014-15 as well as counts showing how many of each of those categories were dismissed or withdrawn. We are particularly interested in Cook, Lake and Will counties, so if the data does not exist in a statewide format, we'd request those the school districts for those counties be supplied.

I would also request that the information be provided digitally, preferably in a spreadsheet or delimited text file, to this email address and that, as a member of the media, any fees be waived.

I can be reached at 312-818-9418 with any questions.

Thank you for your time,

Emily
