

# Artificial Intelligence

## Credential for High School Educators

After a successful launch of our AI Credential course in Spring 2026, IMSA is offering an accelerated section of this virtual, asynchronous course in **June 2026**.

This course opportunity will be **free** for Illinois educators, and we encourage all interested parties to apply. Applications are due by April 30<sup>th</sup>, 2026, and enrollment priority will be given to educators who teach in areas that have not yet been served by IMSA programming during the current academic year. This effort is intended to broaden geographic access and ensure more communities across Illinois can benefit from high-quality AI learning opportunities.

This course is designed for educators who teach high school--especially those who may be interested in teaching a section of this course during the 2026-2027 school year. This is an asynchronous course, with weekly office hour opportunities facilitated by IMSA CS Faculty. Participants will receive a certificate upon completion of the course.

*Program Dates: 06/01/26-06/26/26*
